2026 Big Horn County Democrats Platform

Democrats for the People

Big Horn County Democratic Party Platform 2026

As patriotic Americans, we proudly support policies for the following and the freedoms they provide:

Economy

• Build an economy that rewards hard work with affordable health care, food, housing, and ensure equitable taxation

• Support worker safety, rights, and livable wages

• Diversify our Wyoming economy

• Protect the independence of the Federal Reserve

• Support continuation of established banking regulations under Dodd-Frank

Health Care

• Support the rights of all individuals to make their own health care decisions • Support the scientific healthcare community

• Protect Medicare, Medicaid, and Social Security from privatization, reduction, and elimination

• Ensure affordable physical and mental health care and accessible prescription medication for all

Education

• Support the use of public funds for public education only

• Provide greater support of libraries and public schools, including technical and trade programs

• Support the professional education community

• Promote safety to protect staff and students

• Protect current funding and laws for special needs students

Law and Order

• Support the U.S. Constitution and our constitutional democracy

• Support the rights of legal, responsible gun owners

• Support due process for all regardless of status

• Support adequate funding and training for law enforcement and the personnel who assist them

• Encourage democratic, peaceful international alliances

• Encourage Congress to exercise its constitutional duty

Immigration

• Support reasonable, humane laws with adequate funding to protect and secure our borders • Support immigration reform, including a safe, affordable, timely pathway to citizenship

Elections

• Support the voting rights of all eligible citizens, including the use of mail-in ballots; oppose voter suppression

• Support fair and legitimate elections

Environment

• Support the diversification of energy sources

• Keep public lands in public hands under responsible management

• Support science-based environmental policy to ensure a sustainable environment
